壹. 王主任委員的期勉

I. Encouragement from Minister Wang

勞工朋友是奠定台灣經濟奇蹟的基石，而人口高齡化及少子女化已是台灣人口結構的趨勢，根據統計，高齡人口占總人口比率96年為10.2%、97年為10.4%，106年將增加為14.0%，達到聯合國等國際機構所稱的高齡社會，且預估至114年再增加為20.1%，邁入所謂的超高齡社會，顯示人口高齡化之歷程越來越快。目前7個生產者負擔1個退休者的情況，依推估將於106年演變成5.2個生產者扶養1個退休者，至114年再降為3.4個生產者扶養1個退休者。如果沒有妥善的退休經濟規劃，未來高齡人口將成為新世代沉重的負擔。因此，為勞工朋友打造一個「老有所養」、「幸福尊嚴」的退休生活，一直是勞委會長期努力的使命與目標。

94年7月勞工退休新制的實施，大幅改善過去勞工退休金「看得到，領不到」的困境，截至97年底已有694萬4千餘人擁有個人退休金帳戶。勞工退休基金監理會於96年7月2日成立，統籌監管新舊制勞工退休基金業務，肩負數百萬勞工朋友退休金的運用，責任十分重大。爾後勞工退休金新制與勞保年金、國民年金相互接軌，將使得勞工退休後的所得替代率達到國際保障標準，如再加上個人的儲蓄，更可讓勞工朋友老年退休後的生活確保無虞。

97年是辛苦的一年，受到全球金融海嘯的衝擊，各國股市全面下挫，勞工退休基金連帶受損，幸好我們有政府二年期定存保證收益的機制，不會影響勞工的退休金權益。惟受波及的經濟衰退，使得失業人口大幅攀升，面對如此嚴苛的經濟景況，我們應化危機為轉機，並把握契機開創新局，在非常時期，我們可以為勞工朋友做的事也更多。未來我們仍將致力於提升勞退基金長期穩健之運用績效，以保障勞工退休經濟安全。期勉勞工退休基金監理會持續秉持專業、效率、透明原則，審慎運用勞退基金，為勞工朋友謀取最大利益，這是政府對終生貢獻經濟發展的勞工應有的責任。

行政院勞工委員會
主任委員

Our labor friends are the foundation of Taiwan economic miracles. However, the aging of population and the decline of fertility have become a trend of Taiwan population structure. According to the statistics, the aged population represented 10.2% of Taiwan's total population in 2007, and such number has increased to 10.4% in 2008 with an anticipation that the same may reach 14.0% in 2017 which will essentially reach the level of aged society as defined by international organizations such as the United Nation. It is estimated that the percentage of the aged population will increase to 20.1% in the year 2025 and Taiwan will then enter into the so-called "super aged society". It appears that the progress of aging has accelerated. The current ratio of 7 labors supporting 1 retired worker will soon become only 5.2 to 1 in 2017, and in 2025 the ratio will further reduced to 3.4 to 1 through estimation. Without drawing up and putting in place a proper retirement economic plan, the aged population will soon be a heavy burden for our future generations. Therefore, it has been the long term mission and goal for the Council of Labor Affairs to ensure that our labor friends are provided for and build a joyous respectable retirement life for them.

The implementation of the New Labor Pension Scheme in July 2005 has tremendously improved the past dilemma of retirement labor pension that was said to be "in your sight but never in your pocket." By the end of 2008, over 6,944,000 workers have set up their individual pension account. The Labor Pension Fund Supervisory Committee was established on July 2, 2007 to make overall planning as well as the supervision and control of both the Old Labor Retirement Fund and the New Labor Pension Fund. The Committee has been in charge of the utilization of pension fund for millions of workers and is bearing significant responsibilities for its actions. The New Labor Pension Scheme will later be connecting with the Labor Insurance Annuity and the Annuity of Citizen so that the Income Replacement Ratio of workers after retirement would reach the international standard for protection. On top of workers' personal savings, the retirement life of our labor friends could be further assured.

The year 2008 was a tough one. Due to the impact of the global financial tsunami; global stock markets dropped significantly and the Labor Pension Fund suffered some loss as a consequence. Fortunately, our government has a two-year term deposit guaranteed benefit mechanism and will not impact the rights and interests of labor's retirement pension. However, the economic recession has substantially resulted in a rising unemployed population. In facing such a difficult economic situation, we shall transform crisis into opportunities and seize this critical timing to start a new prospect. During this special period, we could do more for our labor friends. We will devote ourselves to enhancing long-term stable performance of the Labor Pension Fund in order to secure the labor's economic safety after retirement. We hope that the Labor Pension Fund Supervisory Committee will persistently follow the principles of professionalism, efficiency and transparency to cautiously utilize the Labor Pension Fund and seek the utmost benefit for our labor friends. This shall also be the sure duty of our government to all labors who have devoted their entire lives to the economic development.

貳. 黃主任委員的話

II. Message from Chairperson Huang

勞工退休基金監理會於96年7月2日成立以來，積極致力於組織機能建構與基金多元運用。隨著基金規模日愈增長，同仁肩負的責任也越來越重。一年多來，雖有人力及資源上的侷限，但全體同仁無不全力以赴，尤其面對全球性金融海嘯衝擊，更是戰戰兢兢、審慎因應，戮力維護勞工朋友的退休經濟安全。

97年中，本會廣續強化法令規章及資訊系統之建置，提升同仁專業智能並落實風險控管，同時持續定期揭露基金重要資訊，務求基金運用透明化，讓勞工朋友安心。行政院勞工委員會曾兩度邀集學者專家蒞會訪視，均對本會運作機制多所肯定與期許。我們也藉由主辦或參與國內外專業機構研討會，掌握國際經濟動態及退休基金管理趨勢，強化基金投資策略與風險管理。此外，本會冀望基金於創造收益的同時，亦能促進社會永續發展，乃逐步採行社會責任投資相關策略，並就勞工權益、環境保護與公司治理等議題適時履行股東行動主義。

目前勞退基金每年以一千億餘元的速度成長，龐大之金融資產亟需建構最適配置組合，以達長期穩健之收益目標，本會刻正研議如何動態調整資產配置，並建置模擬管理系統，用以協助投資決策，提升基金運用績效。

回顧97年，美國金融風暴席捲全球，導致各國股市重挫，台股跌幅達46.03%，國內共同基金平均報酬率為負46.62%，國內外各大政府基金同樣受到衝擊。面對市場大幅修正，本會適時調整各項資產佈局期程，強化固定收益部位之經營，以及對受託機構之嚴密監管，基金整體報酬率為負8.48%，相較於國內外多數退休基金資產減損程度，表現相對穩健。

退休基金所追求的是長期穩定收益，金融市場短期波動終將回歸正軌，經濟衰退亦將隨景氣循環而復甦。目前勞退基金所面臨的景況，頗與香港強積金（MPF）成立初期的狀況類似，該基金在2000年底成立，適逢網路泡沫導致國際股市重挫，2001

及2002年二年平均報酬率為負7.8%，至2003年起收益轉正，在隨後5年平均報酬率達11.18%，展現長期績效。其他很多著名退休基金也有一樣的情形，均是藉由長期多元投資策略，得以在歷經若干風暴後仍獲致高報酬。

我們堅信在監理會全體同仁的共同努力下，藉由適當的資產配置及穩健的投資佈局，勞退基金未來必將隨著全球景氣逐漸回溫而展現佳績，保障勞工朋友退休生活福祉。

Since the establishment of the Labor Pension Fund Supervisory Committee on July 2, 2007, the Committee has been actively engaged in building organizational functions and diversifying fund investment. With the growth of the size of the fund, the obligations undertaken by our staff become heavier. For over one year, although there are restrictions on the number of staff and the facilities and resources of the Committee at the initial stage, our entire staff still spares no effort in cautiously and prudently protecting our labor friends' economic security of retirement especially when facing the impact of this global financial tsunami.

In the year 2008, the Committee continued to strengthen the enactment of rules and regulations and the establishment of information systems, to enhance the professional knowledge of our colleagues and the risk control management as well as to continuously and regularly disclose important information concerning the Pension Fund in order to achieve the transparency of fund utilization and thus to set the labor friends' mind at ease. Council of Labor Affairs, Executive Yuan has visited the Committee twice and has made many affirmative appraisal and favorable comments regarding the utilization mechanism of the Committee. Through hosting or participating in the domestic and international seminars, we grasp the development of international economy and the management trend for pension fund and strengthen the fund investment strategy and risk control management. Moreover, the Committee, in the hope of promoting the continuing development of the society while generating profits, has gradually adopted relevant strategy in socially responsible investment and timely practice shareholder activism with respect to issues such as labor rights, environmental protection and corporate governance etc.

At present, the Labor Pension Fund is growing in excess of 100 billion every year and the massive financial assets are in need of the most appropriate asset portfolio to achieve a long-term stable profitability. The Committee is now discussing how to adjust

asset allocation dynamically and establish a simulated management model to assist in investment decision-making and improve fund utilization performance.

Looking back at the year 2008, US financial crisis swept across the world and the stock market in each country dropped significantly. Taiwan's stock markets has dropped 46.03% as a result of the crisis in the past year. The average return of domestic mutual funds in Taiwan was minus 46.62%. Each and every major domestic and overseas government fund has also been under great impacts. Facing the major corrections of the markets, we have properly adjusted the investment schedule of asset allocation, strengthened the fixed income management and strictly supervised the mandated institutions. The overall fund return rate, as a result, was minus 8.48%. In comparison with the degree of loss of many other domestic or international pension funds, the Labor Pension Fund's performance is comparably stable and healthy.

All pension funds look for long-term stable income. The short-term fluctuation of the financial market will eventually return to its path, and the economy will also recover from recession along with the economic cycle. The current situation faced by the Labor Pension Fund is similar to what the Mandatory Provident Fund (MPF) in Hong Kong was facing while it was first established. Such MPF was established at the end of the year 2000, the time of Internet bubble during which the international stock markets fell tremendously, and MPF's average return rate for the year 2001 and the year 2002 was minus 7.8%. It was not until the year 2003 that the MPF's return rate has finally reached a positive number. For the following five years after that, its average return rate has climbed to 11.18% and has begun to show its long-term results. Various other well-known pension funds have the same situation and were able to achieve high return after experiencing various economic crises through long-term diversified investment strategy.

Under the effort of entire staff, we firmly believe that the Labor Pension Fund will surely present a better performance with the gradual comeback of the global economic environment in the future through appropriate asset allocation and steady investment portfolio arrangement to protect the labor friends' life welfare after retirement.

參. 本會成立宗旨及任務

III. Objective and Missions

一、成立宗旨

為改善舊制勞工退休金制度常使勞工陷於因工作轉換無法累計年資致未能領取退休金之情況，並提升勞工老年經濟安全，立法院於93年6月三讀通過「勞工退休金條例」，並於94年7月1日起推行新制勞工退休金制度。依該條例第四條規定，匯集雇主按月提繳退休金至勞工個人專戶所成立之新制勞退基金，由行政院勞工委員會組成勞工退休基金監理會，負責其審議、監督及考核等事項；並將舊制勞工退休基金之管理業務納入統籌辦理。

經過朝野立法委員近二年的努力，「勞工退休基金監理會組織法」於96年3月2日經立法院三讀通過，並經總統令公布實施，勞工退休基金監理會於96年7月2日正式成立。

八、訂定社會責任投資策略

近年來企業社會責任漸為人所重視，社會責任投資之觀念亦應運而生。本會除於「勞工退休基金條例退休基金資金運用作業要點」中明定，在兼顧基金收益性下，投資標的之企業社會責任與倫理應納入考量之基金投資運用原則外，亦蒐集國外投資相關資訊，研訂本會社會責任投資策略。

該策略明訂在不影響基金收益之前提下，勞工退休基金將視國內社會責任投資發展狀況，逐步採行相關措施，包括投資相關社會責任基金、對於違反大量解僱勞工保護法致企業負責人遭限制出境者，列為負面篩選投資標的、對於持股占已發行股份達相當比例以上之國內公司，透過股東行動主義促使公司對勞工權益、環境保護與公司治理等相關議題之關注。此外，未來將視國內企業社會責任資訊揭露情形，陸續將相關社會責任構面納入投資策略中，並持續關注相關議題之發展。

九、執行廉政規範

本會成立之初即已訂定「本會員工利益迴避及保密義務注意事項」暨「本會勞退基金管理運用查核機制應行措施」等二項廉政規範，並報奉行政院勞工委員會核備在案。

97年本會執行廉政規範項目有：

(一) 簽署「員工自律公約」：本會全體員工均須簽署「員工自律公約」，要求須嚴守工作上之保密責任及履行利益迴避原則，另外本會直接參與基金投資運用之同仁更要求不得買賣股票。

(二) 實施「公務員廉政倫理規範」：97年8月1日起遵照行政院指示，本會全體員工均需依照「公務員廉政倫理規範」相關要求辦理。

(三) 辦理財產申報：本會依新修訂之「公職人員財產申報法」相關規定，要求相關同仁申報財產。

(VIII) Formulating Social Responsible Investment Strategy

In recent years, corporate social responsibility gradually became more and more important to the society, and the concept of social responsible investment was thus created. In addition to the provisions stipulated in the "Capital Utilization Guidelines for Pension Fund under Labor Pension Act" to take into considerations the Fund's profitability, corporate social responsibility as well as the ethics of investment target in fund investment utilization principles, the Committee also collects information related to foreign investment to form the Social Responsible Investment Strategy of the Committee.

Said strategy clearly stipulates that under the prerequisite that the profit of Fund will not be affected, the Labor Pension Fund will, in consideration of the domestic Social Responsible Investment development status, gradually adopt relevant measures such as investing in relevant socially responsible funds, listing those representatives of the corporations that have violated the Protective Act for Mass Redundancy of Employees and are restricted to leave the country on the Committee's negative list when choosing an investment target. To a domestic company whose shareholding represents a majority of the outstanding shares, shareholders' activism could urge the company to pay more attention to certain issues, such as labor rights, environmental protection and corporate governance. In addition, based on domestic enterprises' social responsible information disclosure situation, the Committee will continuously to include relevant social responsible structure to its investment strategies and will continue to pay close attention to the development of relevant subjects.

(IX) Implementing Civil Service Ethics

At the inauguration period, the Committee has promulgated the "Remarks on Avoiding Conflict of Interests and Obligations to Keep Business Secret of Personnel of the Committee" and the "Measures on the Utilization Check Mechanism of Labor Pension Fund of the Committee" and has reported the same to the Council of Labor Affairs, Executive Yuan for record.

Civil service ethics items implemented by the Committee in 2008:

(1) Execution of the "Employees' Code of Self-Discipline": the entire staff of the Committee shall sign the "Employees' Code of Self-Discipline". It is required that all staff shall keep in strict confidence of the information related to their work and shall implement to avoid the conflict of interests principles, and the employees who are directly involved in the fund investments are not allowed to trade stocks.

(2) Implementation of the "Ethics Directions for Civil Servants": according to the instructions rendered by Executive Yuan on August 1, 2008, the entire staff of the Committee shall comply with the relevant requirements under the "Ethics Directions for Civil Servants".

(3) Declaration of the Property: according to the newly-amended "Act on Property-Declaration by Public Servants", the Committee requires its relevant employees to declare their personal assets pursuant to the rules.

玖. 未來展望

IX. Future Prospects

一、研議多元化資產配置，提昇基金運用績效

為因應詭譎多變的金融市場與經濟環境，降低基金資產波動與投資組合風險，未來將深化「勞工退休基金最適資產配置組合」研究，並參酌先進國家退休基金及大學捐贈基金（如加州公務人員退休基金、耶魯大學校務基金）運用靈活的多空策略，將部分資產配置於絕對報酬及商品、不動產與基礎建設等實質資產的非傳統股債投資，藉由其與傳統股債相關性較低甚或負相關的特性，逐步調整資產配置，以達到長期穩定之收益目標。

(I) Discuss Diversified Asset Allocation to Enhance Fund Utilization Performance

In response to the ever-changing financial markets and economic environment to lower the fluctuation of the Fund asset and the risk of investment portfolio, the Committee will conduct in-depth research in "The Optimal Asset Portfolio for Labor Pension Fund". The Committee also takes into consideration of the flexible strategies conducted by the pension and university endowment funds of the advanced countries (such as CalPERS, Yale Endowment Fund), and will allocate a portion of the assets in the non-traditional investments including absolute return products and the real assets such as commodity, real estate, and infrastructure etc.. With the lower or negative correlation between the above mentioned non-traditional assets and traditional equity/fixed income sectors, the Committee aims to gradually adjust the asset allocation and obtain a long-term stable return for the Labor Pension Fund.

二、核心與衛星投資並重，衡平佈局國內外市場

資產配置之良窳攸關退休基金投資收益，為強化勞工退休基金資產配置結構，並配合國際金融市場脈動進行多元化資金運用，未來將持續透過核心與衛星之配置策略，衡平佈局於國內外波動性較低之核心資產及收益性較高之衛星資產，以分散投資風險及提升投資收益。

(II) Equally Value the Core and Satellite Investments and Balance the Domestic and Foreign Markets

Asset allocation is essential to the return of any pension fund. In order to strengthen the structure of asset allocation and to diversify fund utilization in coordination with the international financial markets, the Committee will continuously diversify investment risks and increase investment returns through the application of the core-satellite allocation strategy, balancing the domestic and foreign investments in the lower volatility core assets and the higher yield satellite assets.

三、積極運用資訊科技，強化投資風險控管

自此波全球性金融危機發生以來，各國政府及企業逐漸意識風險管理之重要性。本會藉由完善之資訊管理系統，對各項投資進行事前與事後嚴密之監控，以降低基金之投資風險。未來將繼續對各項資產運用，透過資訊系統估算其個別及整體風險值，研判未來可能發生之風險，適時調整資產配置，落實風險控管，以提高經營績效。

四、建立國際交流機制，掌握退休基金管理趨勢

為掌握退休基金管理趨勢與國際金融脈動，未來將繼續透過多元面向加強與國內外退休基金管理組織交流與合作，並積極參與國際會議或相關活動，俾使我國勞工退休基金監理制度更臻完備，確保勞工退休生活福祉。

(III) Active Application of Information Technology and Strengthen Risk Control Management

Ever since the occurrence of this global financial crisis, governments and enterprises gradually became aware of the importance of risk management. Through our sound information management system, the Committee has been actively supervising each investment prior to and after making such decision to lower the fund investment risks. In the future, the information system will estimate the individual and overall risk for each asset class so that the Committee can assess the potential risks in the future to timely adjust the asset allocation, and implement the risk control management in order to increase management performance.

(IV) Establish International Communication Mechanism and Grasp the Trend of Pension Fund Management

In order to grasp the trend of pension fund management and international finance, the Committee will, in various ways, strengthen the communication and cooperation with domestic and foreign pension fund management organizations, and actively participate in international conferences or relevant events to perfect the supervisory system of our Labor Pension Fund so as to ensure the welfare of labors' retirement lives.
