

## Appendix 1 The Controlled Chemicals

Name of Chemicals
1. Yellow phosphorus match
2. Benzidine and its salts
3. 4-Aminodiphenyl and its salts
4. 4-Nitrodiphenyl and its salts
5. $\beta$ -Naphthylamine and its salts
6. bis-Chloromethyl ether
7. Polychlorinated biphenyls
8. Chloromethyl methyl ether
9. Crocidolite, Amosite
10. Methyl mercury compounds
11. Pentachlorophenol and its sodium salts
12. Dichlorobenzidine and its salts
13. $\alpha$ -Naphthylamine and its salts
14. o-Tolidine and its salts
15. Dianisidine and its salts
16. Beryllium and its compounds
17. Benzotrichloride
18. Glue with benzene content [glue solvent (including thinner) with benzene content exceeding 5% by volume]
19. Mixtures with the item 2 to item 16 content exceeding 1% by weight. (for beryllium alloys, the percentage by weight of beryllium exceeding 3%.); Mixtures with the item 17 content exceeding 0.5% by weight.
20. Others as designated and issued by the central competent authority.
